## German Shepherd's height and weight

- The height of male German Shepherds can grow as tall as 2 ft.2 in. which isn't very tall at all.
- The height of female German Shepherds only grow up to 1 ft. 10 in.- 2 ft. Wow, that's even shorter.

# The Popularity and Life Expectancy of German Shepherds

- German Shepherds ranks two out of one hundred-ninety four.
- And did you know they can live 7-10 years maybe longer or shorter, you never know.

# Alert and Awake

- German Shepherds are awake and strong dogs, they are great police dogs and can smell and sense things very easily.
- They are very common dogs but are still very popular to a lot of people in the world.

# My Mom and her dog's

- Her first German Shepherd's name was Jenny. She was such a sweet dog. She used to let birds walk onto her food dish and snatch some of her food.
- Her second German Shepherd's name was Tina. She was a good girl too. She was very loyal and loving. My Mom was upset when she passed away.

# Comments about them

- They are graceful and loyal, and they're so much more.
- You can train them to be majestic dogs and perform tricks.

## THE ENDING

I hope you liked it because I did. Have a great day!
